

# Evacusafe EvacPAD

Every minute matters when it comes to saving lives.

That's why companies are turning to quick-to-deploy, life-saving equipment like the EvacPAD.

EvacPAD is a 2 inch foam pad covered with a tough PVC top and durable plastic base that allows it to slide easily over all kinds of flooring, from linoleum and vinyl to carpet, wood, tile, and rough outdoor surfaces. The EvacPAD is best for use in older buildings, areas under renovation, or locations that require evacuation across a large outdoor space.

Able to carry the weight of most people and made with flame-retardant, wipe-clean material, it is durable and easy to maintain. The plastic base is replaceable if it gets too worn down and comes with a convenient wall-mounted storage bag when not in use.

## EvacPAD Specifications

Length (packed/deployed)	27"/78"
Width (packed/deployed)	30"/23"
Depth (packed/deployed)	7"/2.5"
Weight	14.3 lbs.
