PORTWEST® COOLING 360°

Reduce heat stress and keep cool
with the PORTWEST COOLING 360°
range of innovative products

CV02
129

Fabric Information

Portwest evaporative cooling products are constructed from Cooling 360° Fabric Technology which uses a unique polymer chemistry. Simply activate by soaking in water creating a chemical reaction within the fabric which enables the garments to act like a sponge; retaining water, keeping the body cool in hot weather conditions

COOLING VEST

The Latest in Cooling Technology

This innovative range offers a comprehensive selection of products to help minimize the risk of heat stress and UV rays. Outdoor workers in construction, agriculture, mining, oil and gas and other industries frequently find themselves working in temperatures up to and over 100°F (40°C). This Cooling range is ideal for use in these conditions.

A man with dark hair and a serious expression is wearing a dark blue, high-tech rain jacket. He is adjusting the collar of the jacket. The background is a dramatic, blue-toned image of a stormy sea with white-capped waves and lightning bolts striking the dark, cloudy sky. The overall mood is rugged and weather-resistant.

PORTWEST®

Rainwear Range

S600

134

The following Rainwear collections offer an outstanding choice of designs and colors, suitable for many end users. The best quality fabrics and the highest technology construction techniques are used throughout, guaranteeing the ultimate in all-weather protection. Tested to withstand the rigors of everyday wear, each garment has been designed and manufactured with care to ensure total satisfaction wear after wear.

6 Industry Leading Rainwear Fabrics

Sealtex® Classic is a high technology, PU coated fabric, on a flexible, highly resistant 100% Polyester tricot knit, 6oz. Sealtex Classic fabric is tested regularly to ensure it meets and exceeds waterproof standards. The welded seams used on all Sealtex garments ensure rain and wind are locked out and the durable, stretchy fabric can easily be wiped clean so Sealtex garments look good and last longer.

Engineered with exceptional fabric and design, the new **Portwest X3™** rainwear collection allows for optimal outdoor performance. Designed with a modern slim cut and multiple performance enhancing features, the highly waterproof and breathable fabric used in this collection offers maximum protection against harsh weather conditions.

The **PORTWEST PWR™** collection is constructed from Portwest Extreme, a premium high performance waterproof and breathable fabric. Using state-of-the-art technology, the base fabric has been engineered to provide a technical barrier against the elements. This provides the maximum waterproof, breathable and windproof protection, which far exceed the current highest requirements.

Technical and innovative, the **TK2™** rainwear collection is engineered for maximum waterproof, windproof and breathable performance. Designed to be worn in adverse weather conditions, the collection incorporates clever styling with shaped panels for a comfortable and generous fit. The sophistication of TK2 provides a 100% waterproof garment of unequalled strength, at the same time retaining exceptional suppleness, ideal for corporate use.

The **Ripstop collection** is constructed using a highly innovative 100% polyester, PVC coated ripstop fabric. The polyester fabric combined with the Ripstop pattern provides an extremely strong yarn which is highly durable and tear resistant. The tough outer shell guarantees outstanding waterproof protection at all times.

When functionality, added visibility and waterproof protection is required, look no further than the **Iona™** Lite Range. These garments are certified to the highest waterproof standard and have sealed seams to ensure total protection against the rain.

Engineered with exceptional fabric and design, the new Portwest X3™ rainwear collection allows for optimal outdoor performance. Designed with a modern slim cut and multiple performance enhancing features, the highly waterproof and breathable fabric used in this collection offers maximum protection against harsh weather conditions.
